“Purveyors of the curious, the spectacular and
sometimes the delightfully eccentric,
House of Piccadilly is the chosen source
of the discerning homeowner.”

Cherishers of quirky beauty: welcome to House of Piccadilly.

Come on in – even the water feels luxurious.

Jewel-like exquisite finishing touches and design detail sprinkle magic over your bathroom. You'll discover showers to transport you. Towel rails with attitude. Taps and mixers that could have stepped off the catwalk. And more.

We call it brassware. We also call it gorgeous.

Brassware Collection

You could just hop into the bath. You could merely jump in the shower.
You could wash and go. If that's your vibe, wonderful. You'll get clean.

Or, you could transform bathing into the deepest pleasure with House of Piccadilly.
From the spellbinding depths of our design room emerge taps, mixers, showers and accessories
that leave yesterday's bathrooms looking on in gnawing envy.

House of Piccadilly is for the curious, the rebellious, the connoisseurs. It's for those who are
determined to savour every single moment, delighting in the knowledge that a shower is
a waterfall of inspiration and a soak is a life-affirming ritual.

Ready to open the floodgates to a new way of bathing?
Turn the pages and let the luxury overflow.

The Vienna

There's an echo of the past around Vienna's contemporary lines. An elegant contradiction, these are designs for those who refuse to be defined.

Showering

Fans of the ordinary, look away now. When you step into a House of Piccadilly shower, you are setting foot into a style fantasy that is a million miles away from the daily routine.

Whether you're an early bird or a night owl; turn the temperature up minute-by-minute or end on an icy blast, accept only the extraordinary and expect every day to be exceptional.

And, when you turn off the water and return to reality, you never really leave – it's just a pause until the next time.

Accessories

Bathroom adornments are there to be adored. Yes, they serve a purpose, but that doesn't mean you cannot place some importance on being impeccably stylish too.

Carefully crafted and considerably curated to blend seamlessly across the bath, basin and shower collections.

This is where function and aspiration come together. These are the finishing touches that bring a room to life. This is the House of Piccadilly Accessories collection.

The Alby

With curves for days and perfectly weighted,
these are hooks and rails to carry only the
very finest burdens.

The Bath and Basin Collection

Bath tubs that draw you in. From the depths of design and decadence, we present the House of Piccadilly bath collection. When it comes to the focal point of your bathroom, fortune favours the brave.

Dip your toe into the grandioso, because when you slip into a House of Piccadilly bath tub you are transported to another time and place; feeling every bit as magnificent as your stately statement piece looks.

Dramatic as it sounds, a basin can make or break a bathroom. We lean towards the dramatic at House of Piccadilly, and basins are no exception. We put our basins on a pedestal for good reason (even if they are countertop).

Sumptuously curved or modestly shallow, every contour just makes sense. Choose one to make a big impact in your smallest room or double down on the decadence with two side by side. Either way, brushing your teeth has never been so opulent.

Stoneware

Celebrators of the unconventional, welcome to House of Piccadilly.

As masters of the art of creating enchanting bathrooms, our stoneware collections set the stage for spellbinding interiors. Baths to bubble up. Basins to pour over. And that's even before we add the special ingredients – taps and accessories.

Devotees of the decadent, the daring and the downright impeccable, we present to you our book of design secrets.

Radiator Collection

You could replace your rail. Fit a new radiator. Swap out that squeaking valve.

Or, you could make every element of your home remarkable with House of Piccadilly.

Purveyors of the curious, the luxurious and sometimes the delightfully naughty, we're here for those who like to cause a bit of a stir. Those who yearn for a clandestine retreat. Those who delight in having their followers clamouring for more.

House of Piccadilly is about expressing yourself, your sense of style and what your home means to you. Whatever your look – wild, refined, cultured or pure, our expertly curated radiator and accessory collections are here to elevate your spaces. To excite the imagination.

And to make a statement.

Ready to uncover the secrets behind the most covetable rooms? Then let's begin.

Modern

Towel Rails

Whether your style is effortlessly minimalist or thoroughly outrageous, there's no place for a frumpy radiator in your home. Contemporary, luxurious and efficient, a House of Piccadilly radiator or towel rail is all about making a statement.

Inka

Traditional

Towel Rail Radiators

Decadently sumptuous bath sheets won't be satisfied with just any old heated towel rail. They demand space to warm their thick fibres, elegance to show off their generous folds, and a choice of finishes to stand out beautifully in your bathroom. Enter the Traditional collection from House of Piccadilly.

Traditional: Towel Rail Radiators

Same towel rail radiator, different finish. The collection is available in a choice of treatments, so you can make your home spectacularly yours.

Lendal

House of Piccadilly's aluminium radiator collection doesn't shy away from making a statement. These pieces were not designed to blend into the background. From the tall statuesque supermodel-sized styles to the wall-runner radiators that clinch and cinch across inches of the wall, these radiators should never be an afterthought.

The properties of aluminium make it perfectly malleable to make beautiful metallic works of wall art; to incite fascination, influence imagination, inspire conversation – and we're hanging on every word.

Lendal: Aluminium Radiators

Go all in for aluminium and get maximum impact from the sleekest, slickest heating solution.
