EASY PLUMB

EASY ACCESS SHOWER TRAY KIT

SONAS Bathrooms now offer an Easy Plumb, Easy Access kit solution across its range of KRISTAL Low Profile shower trays.

Loved by installers, the easy plumb installation kit features adjustable legs and loose removable access panels with a unique fastening system. Designed to raise the tray off the floor, it is ideal in applications where the shower tray waste and pipework needs to be plumbed above the floor boards or concrete floor.

The access panels in each easy plumb kit are made to suit various sizes and therefore may need to be cut down on site to suit some tray sizes. Each panel has cut lines clearly marked to suit your tray size.
